

SVHM Internal - Researcher/Investigator Initiated ONLY

Sample Type		Fee from 1 Jul 24 (reviewed annually)	
Deposit/Processing (per sample)			
PBMC+plasma		\$57.00	
BMMC+plasma		\$57.00	
Buffy coat+plasma		\$51.00	
Plasma/Serum (single spin)		\$17.00	
Plasma/Serum (double spin)		\$28.00	
Tissue		\$45.00	
Urine		\$11.50	
Stool		\$11.50	
Retrieval (per vial, depositor retrieves)		Retrieval (per vial) – Third party retriever	
PBMC	\$17.00	PBMC	\$40.00
BMMC	\$17.00	BMMC	\$40.00
Buffy coat	\$17.00	Buffy coat	\$35.00
Plasma/Serum	\$6.00	Plasma/Serum	\$15.00
Tissue	\$17.00	Tissue	\$40.00
Urine	\$6.00	Urine	\$15.00
Stool	\$6.00	Stool	\$20.00
Storage (annual charge)			
Per LN2 aliquot	\$1.00		
Per -80oC aliquot	\$0.50		
Commercial per box LN2	\$325.00		
Commercial per box -80oC	\$210.00		

The fee structure above is for Researcher/Investigator Initiated studies, internal to SVHM, only. If you would like a tailored quote for a commercial study or sponsored trial, please contact us at: biobank@svi.edu.au

To facilitate growth of sample collections as a research resource, Biobank offers a "split-cost" pricing model. A portion of the sample processing costs is charged up front, and the remainder at the time of sample retrieval from the repository. This allows researchers to accrue samples in a cost effective way, prior to obtaining funding for downstream research.

For the purposes of planning, and particularly grant applications, please factor in a CPI increase of 3-5% annually in these costs

Biobank operates under a cost-recovery only model, for researchers and investigator-initiated studies
